

## **One Day Workshop on Modern Tools and Techniques for Cell Analysis organized at ICAR-National Bureau of Fish Genetic Resources, Lucknow**

A one day workshop on modern tools and techniques used for cell analysis such as health, proliferation and differentiation ability, apoptosis and rapid quantification of cell was organized on 24th August, 2017 at ICAR-National Bureau of Fish Genetic Resources, Lucknow. The Workshop was inaugurated by Dr. Kuldeep K. Lal, Director ICAR-NBFGR in presence of Dr. Ravindra Kumar, HoD, Molecular Biology and Biotechnology Division, Dr. Vindhya Mohindra, HoD, Fish Conservation Division, Dr. Nandini Pal Basak, Field Application Scientist, Thermo Fisher Scientific and Dr. Sullip Kumar Majhi, Senior scientist, ICAR-NBFGR. The Workshop was attended by sixty five participants including Scientists, Technical Officers, Research Scholars and Students. Deliberations done in this workshop will help the researchers to make use of modern tools and techniques which are reliable, efforts saving and having versatile applications.
