

Training of Trainer (ToT) Programme
on
Re-Circulatory Aquaculture System (RAS)
(26-30 November, 2018)
ICAR-National Bureau of Fish Genetic Resources, Lucknow

Training of Trainer (ToT) Programme on Re-Circulatory Aquaculture System (RAS) training (26-30 November, 2018) has been inaugurated at ICAR-National Bureau of Fish Genetic Resources (NBFGR), Lucknow by Dr A. K. Singh, Ex-Director of ICAR-Directorate of Cold Water Fisheries, Bhimtal, Uttarakhand. Dr. Singh in his inaugural address presented his view with special reference to RAS in Mahasheer fish farming and advise participants that they can learn basics of RAS and implement according to their situational demand. Participants from different state fisheries department (Punjab, Uttar Pradesh, West Bengal, Kerala) participated in the training programme. Dr K.K. Lal, Director, ICAR-NBFGR, Lucknow highlighted importance of Modern RAS and its productive use in the inland fisheries sector. Dr S. K. Singh, Principal Scientist and Scientist Incharge, ARTU, Chinhat, Lucknow welcome the guest and participants along with outlines of training programme. A training manual on RAS has been released by dignitaries on the occasion. The technical session started with relevant lecture, practical and field visit session. Dr. A. K. Yadav, CTO, ICAR-NBFGR, ARTU, Chinhat, Lucknow presented vote of thanks.
