

ICAR-NBFGR celebrated 77th Independence Day with fervour and gaiety

77th Independence Day was celebrated with full enthusiasm at ICAR- National Bureau of Fish Genetic Resources, Lucknow. The national flag was hoisted by Dr. Uttam Kumar Sarkar, Director, ICAR-NBFGR. Dr. Sarkar congratulated the staff for the achievements of the institute, such as efforts in enhancing the income of native women islanders of Lakshadweep by expanding rearing technology through “Community Aquaculture”, for which Hon'ble President of India, Smt. Droupadi Murmu lauded. Dr. Sarkar stressed the need to undertake more research work pertaining to innovations in climate resilient technology for fish biodiversity conservation and productivity, milt cryopreservation technology, cell culture, fish disease surveillance and extension fisheries etc. Dr. Sarkar mentioned that the institute has been keeping pace with the initiatives of the council and has been shortlisted for awards like adopting e-governance in an effective manner at the institute. The programme concluded with a cultural programme by children of staff members of the Institute.
